

Brownstone is a brown [Triassic](#) or [Jurassic sandstone](#) which was once a popular [building material](#). The term is also used in the [United States](#) to refer to a [terraced house](#) (rowhouse) clad in this material.

Assignment: You will create 4 different 'rowhouses' showing Shapes, Lines, and Texture.

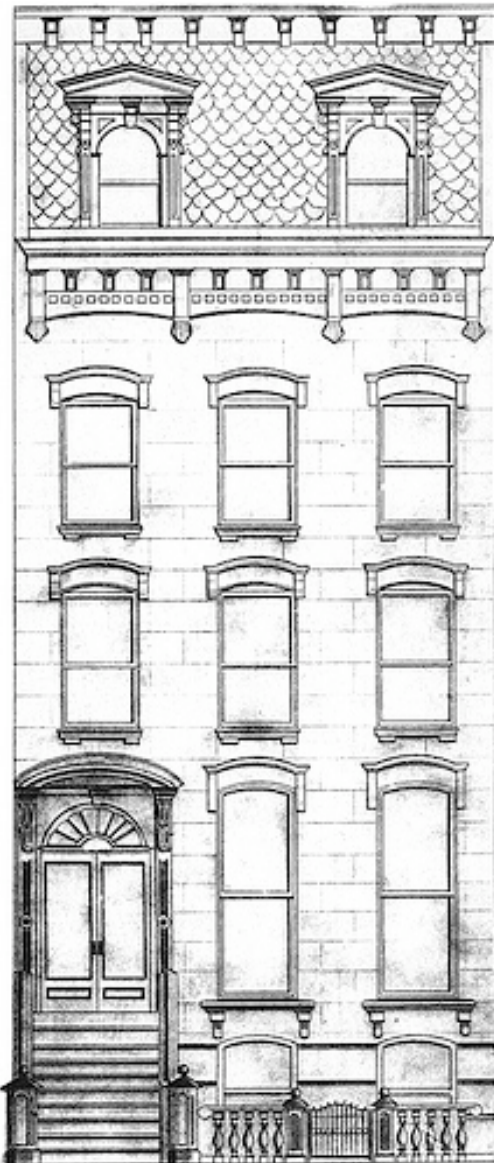

Each 'rowhouse' must be at least 3-4 stories high - each floor should have windows.

You must show the texture of the building - see attach sheet with various textures and types of windows/doors you might include in your design.

You might also include other details to make your 'rowhouses' look like people actually live in them - curtains, planted pots, trees, sidewalk...

Materials: 12x18 White Drawing paper, pencils, erasers, rulers, sharpies, and watercolor paint.

Due Date: Project **must** be completed by June 14th

Project Timeline:

May 17 - Introduction/Start Drawing w/pencils

May 24 - Continue Drawing with Pencils - Some may be ready to use Sharpies.

May 31- Start or Continue with Sharpies

June 7 and 14 - Watercolor

Project Expectations:

___ Did you create 4 different 'rowhouses' that shows Shapes, Lines, and Texture.

___ Each 'rowhouse' must be at least 3-4 stories high - each floor should have windows.

___ You must show the texture of the building - see attach sheet with various textures and types of windows/doors you might include in your design.

___ You might also include other details to make your 'rowhouses' look like people actually live in them - curtains, planted pots, trees, sidewalk...

___ Did you use the watercolors appropriately? Using colors from light to dark - keep your water as clean as possible.
